ICoST 2020

International Conference on Science and Technology 2020

10th September 2020

UMK Virtual Conference Series 2020

Universiti Malaysia Kelantan (UMK) is organizing the International Conference on Science and Technology 2020 virtually due to COVID-19 pandemic. This conference is collaborated between four faculties in UMK which are Faculty of Bioengineering and Technology, Faculty of Earth Science, Faculty of Agro Based Industry and Faculty of Veterinary Medicine.

This conference aims to be an excellent platform for knowledge exchange between academic researchers, sharing experiences and research findings specifically in Science and Technology fields. Prospective authors are invited to submit a full paper which is describing original work on all aspects of related fields.

Important Deadlines

Full Paper Submission
15th July 2020

Notification of Acceptance
31st July 2020

Payment
30th August 2020

Topics

A : Agriculture & Food Security

- 1) Agriculture & Food Security
- 2) Agriculture Science
- 3) Agrotechnology
- 4) Animal Husbandry
- 5) Aquatic Science
- 6) Food Security
- 7) Animal Nutrition
- 8) Plant Science
- 9) Agro Product Development Technology
- 10) Future / Urban Farming

B : Natural Resources and Environmental Sciences

- 1) Forestry and wildlife management
- 2) Environmental Technology
(include GIS and Remote Sensing application)
- 3) Mineral & geology (related to geo-scientific)
- 4) Physical Sciences (Air, Soil, Water, Modelling)
- 5) Ecosystem services
- 6) Economic & Environmental Sociology
- 7) Biotechnology
- 8) Ecotourism

Publication

All accepted papers will be published in Scopus indexed publication.

Fees

Presenter : RM 400 (Local) / USD 200 (International)
Participant : RM 80 (Local) / USD 50 (International)

Registration

All registration and submission of papers can be done via the official website at <https://icost.umk.edu.my>

Scan to register.
There are only 100 seats available. Please book yours as soon as possible.

C: Recent findings on Bio-Industrial, Materials and Forest Resources Technologies

- 1) Microbial Technology
- 2) Bioprocess Technology
- 3) Green Technology
- 4) Metallurgy
- 5) Ceramic
- 6) Semiconductor
- 7) Composite/Polymer
- 8) Wood Technology
- 9) Biomass utilisation
- 10) Wood and wood derivatives
- 11) Wood Industries IR 4.0
